

2023-II Anchovy Fishing Season

- On October 22, 2023, the Ministry of Production (Produce) officially authorized the start of the second fishing season for anchovy (*Engraulis ringens*) and white anchovy (*Anchoa nasus*) in the north-central zone of the Peruvian Sea.
- According to RM 358-2023-PRODUCE, the second fishing season will begin on October 26, 2023, at 00:00, with an established catch quota of 1 million 682 thousand tons of anchovy. This quota guarantees that activities remain within the recommended sustainability limits.
